

Saturday, August 18, 2012 – Friday, August 24, 2012

Note: Information in this update is intended to highlight the week's major grizzly bear management actions and is not intended to be a comprehensive detailing of all management activities. Information in this update is draft and subject to change as details from the field become available. Finalized annual reporting of this information is published in the annual report of the Interagency Grizzly Bear Study Team available at: <http://www.nrmssc.usgs.gov/products/IGBST>

Verified Grizzly Bear Killed Livestock

- Verified one domestic yearling cow and three calves as killed by grizzly bears on Forest Service grazing allotments north of Pinedale.

Research and Monitoring

- The final round of grizzly bear observation flights were completed for the summer. Over 100 grizzly bears were observed in the Wyoming area of the flights.
- Captured an adult male grizzly in the Gros Ventre Wilderness Area. The bear was tagged and radio collared. Biological samples were taken and he was released on site.

Bear Management (Captures, Relocations, and Removals)

- Nothing to report

Law Enforcement and Related Activities

- A 26 year old male grizzly bear was hit by a vehicle on the North Fork Highway. It is unknown who hit the bear. Samples were taken from the bear.

Outreach and Education

- Worked with many homeowners to secure grain sheds, beeyards, trash, and other attractants where grizzlies are active throughout NW Wyoming.
